The Mole and The Queen

From Iceland

Forest trip

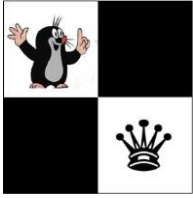

January 6th we said goodbye to the Christmas. We went into the forest and sat by the fire and we sang Christmas song. We send a light into the sky and of course, we bring the Mole with us and they had a great time with us

International Chess Day

The 26th of January every year we celebrate a special Chess day by holding a chess tournament for the oldest children at Furugrund. This day was especially important this year because of our involvement in the project "The Mole and the Queen". Everyone got a prize for participating and the winner got a winning certificate.

The Mole and The Queen

Visit to the Museums in Kópavogur

The Mole went many times with the children to the Natural History Museum and the Library. He was very interested about every thing, but the most fun was going to the bus and the Mole have the opportunity to sit alone in the seat.

The Mole and The Queen

Lifelong Learning Programme

Learning about other countries

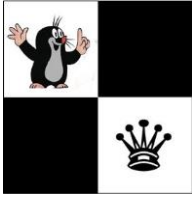

The children learn a lot about the countries who are cooperating with us in the Comenius project. The countries are six. We showed the children the national flags and they drew pictures of them.

Moldi in art

Moldi was painted in many different ways. The student of Furugrund watched the cartoons about Moldi and then made many different projects.

Day of Iceland

We celebrate the Day of Iceland with our friends in Sv. Sv. Kiril i Metodij with help from Skype. First was a presentation about Iceland and Icelandic culture, the children danced several dances, including the Icelandic song. Finally our children sang two songs for us.

The Mole and The Queen

Chess tournament

We had a chess tournament between Iceland and Slovakia and also between Bulgaria. The Chess tournament went very well. We took video during the tournament so we can show it to our friends in the project.

Planting in Furugrund

The children put down the seeds. They'll be growing peppers, flowers and vegetables.

Webpage

We write about everything we do in the project on our webpage: <http://furugrund.is> . At least twice in a week we put some tasks on the webpage. We have also introduced the project to others schools in Iceland. We also write on our common webpage: <http://moleandqueen.weebly.com/blog>
