FROM SLOVAKIA

We did organized Carnival in our Kindergarten back in February 2013. Children were introducing their masks with help of the mole, they were playing games and having fun. The whole carnival was organized under the project idea. The teachers were dresses us Chess queens and kings of our kingdom.

The March is the month of The book in Slovakia. We did remind it by visiting our local Library in Mosovce together with a 'Krtko' /mole/ and the librarian Mrs. J. Fanciova .

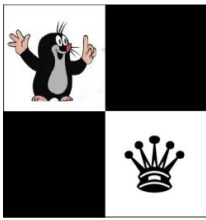

We were enjoying the time there, without the usual after lunch nap time in kindergarten. Instead we were reading books and listening stories told by Mrs. Fanciova.

We did borrow home some books. This was marked in ours hand made record books.

Together with parents of children we were leaving a library full of joy and happiness.

The web page has been created by us : www.msosovce.sk. The purpose of this web page is to introduce life and activities in our kindergarten and to make public our projects to the parents and everyone interested.

Ms. Regina Pokorna (Slovak chess master) did accepted our invitation to visit our Kindergarten. /She is the most popular from Slovak women chess players. She is travelling a lot and introducing chess also in exotic countries. Her picture was published on the stamp of the Cad republic. She was training children also on Island./

Ms. Regina introduced herself and told us story how she started with chess. Children showed her how they know to play chess and together we played several games. It was for all of us amazing experience.

Program celoživotného vzdelávania

From 27.5. to 30.5. 2013 our Kindergarten has been visited by the children, teachers and parents from our project partner Kindergarten called 'Slunicko', located in Kolin-Sendrazice, Czech Republic.

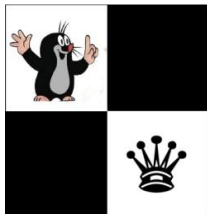

The Czech parents were bringing their children to our Kindergarten during the visit. The children adapted new environment very fast and were joining education activities.

For our visitors we did prepare interested program.

On the first day parents tasted Slovak delicacies called 'Bryndza' (goat cottage cheese). At the beginning it was with bit of hesitation but ended with recognition of quality and exception taste. The children were at concert played with Slovak tradition musical instruments: 'fujara'/long whistle/, different types of whistle, 'fujara trombita', horn, 'gajdy'/bagpipe/, 'heligónka' and others. They were listening to Slovak traditional songs and dance was not missing too. Mr. Budinsky from Ocova was playing on different instruments. He made children to be enjoying the concert in fun way. At the end of education concert all the children were dancing spontaneously in rhythm of Slovak traditional music. On the second day we went for a trip to 'Habakuky' amazing fairy tale world in Donovaly. In the afternoon we went to local bakery in Mosovce. The bakers showed us how to make a bread. On Thursday we prepared chess tournament between Slovak and Czech children. The children showed us their skills in playing chess. We can proudly say, new generation of chess players is growing up in Mosovce. In the afternoon we said bye bye to our visitors. The children and teachers received small presents.
